

IN THE SPECIFICATION:

The paragraph at page 20, beginning at line 12 and ending at line 18 is being amended as follows:

---

According to the control in Fig. 5, if important data is stored in the memory 113 ~~114~~ when the shutdown of the main power is instructed through the soft-switch 18a, a user can forcibly hold the power supply from the backup battery by using the switch 114, thereby preventing the important data stored in the memory from being lost.

---
